The law can be a daunting subject - join Janet Freeman to learn about the tools and educational resources developed especially for libraries that help the public access and understand legal information. Examples include resources from the Public Legal Education Association (PLEA), legal information sessions, and more. Bring your ideas and questions, there will be

plenty of time for discussion. This lecture coincides with a **Free Legal Resource Fair Tradeshow** and **Walk-in Family Law Information Clinic** - find more information at [www.law.usask.ca/SKA2J17.php](http://www.law.usask.ca/SKA2J17.php)
