

BOOK LAUNCH: *DANGEROUS OPPORTUNITIES*

FRIDAY, FEBRUARY 10, 2023 AT 1:00PM CST

Virtual Event

1:00PM CST/2:00PM EST

In *Dangerous Opportunities* five leading Canadian legal experts use the Home Capital crisis as a starting point for examining overlapping areas of business law: corporate governance, pension fund law, financial literacy initiatives, mortgage regulation, and tax law. The book highlights gaps in Canada's current legal framework that leave us at risk of a future financial crisis and what we can do to avoid one.

On February 10, 2023, hear from the contributors on what lessons we should be taking away from the Home Capital crisis as well as recent developments in their respective areas of investigation.
